APOLLO

STEEL & AMERICAN ASH WOOD FRAMES

- Apollo Plus
- Apollo Plus Black
- Apollo XL
- Apollo Pro XL

VIKING

AMERICAN ASH WOOD FRAMES

- Viking 3 V
- Viking 3 XL
- Viking Pro XL

EVOLUTION

STEEL & ALUMINIUM FRAMES

- Evolution E350
- Evolution E550

BLUETOOTH CONNECTIVITY

Turn your workout into a new, visual and immersive experience and unlock a new world of possibilities.

Track your progress, get coached by experts and train with stunning real-life videos.

TANK TYPES

TWIN TANK
17 LITRES OF FLUID RESISTANCE

PLUS MODELS

- 4 resistance levels
- The selected resistance level needs to be set manually on the monitor

V TWIN TANK
17 LITRES OF FLUID RESISTANCE

V MODELS

- 5 resistance levels
- 15% more resistance than a regular Twin Tank
- The Bluetooth Monitor automatically displays the selected resistance level

XL TWIN TANK
20 LITRES OF FLUID RESISTANCE

XL & PRO XL MODELS

- 10 resistance levels
- 65% more resistance than a regular Twin Tank.
- The Bluetooth Monitor automatically displays the selected resistance level

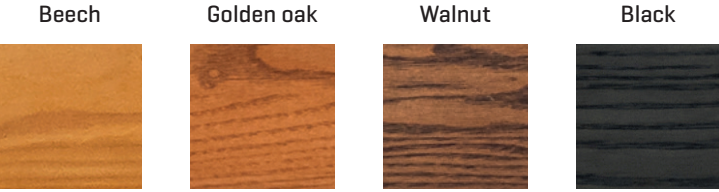

VERTICAL TWIN TANK
8 LITRES OF FLUID RESISTANCE

EVOLUTION AND EXERCISE MODELS

- 10 resistance levels
- Effectively moves the water via a nine-blade impeller, adding extra resistance.
- The water naturally flows down and further enhances the resistance.

EXPERIENCE THE BEST ADJUSTABLE
WATER RESISTANCE ROWER ON THE PLANET

ADJUSTABLE FLUID RESISTANCE
FAST AND SMOOTH RESISTANCE ADJUSTMENT

Rowing with a Fluid Rower sounds, feels and looks like you are on the water thanks to the high-quality water tank with patented Twin Tank technology. This unique system easily lets you adjust the resistance of the water at any time using the dial.

INSTANT CATCH
PART OF THE IDEAL ROWING STROKE

Each Fluid Rower has an 'instant catch' thanks to a modification in the blade of the water tank. This means that resistance is felt continuously with every rowing stroke, from start to finish. Most other water resistance rowing trainers don't have this, which means there is no resistance in the catch phase of the rowing stroke.

ENGINEERED TO PERFECTION
WITH LIFETIME WARRANTY ON THE WATER TANK

The patented Fluid Resistance Twin Tank has been perfected and refined down to the last detail: if the water limit is not exceeded, the tank never leaks. Not even if you place it upright. Therefore we offer a lifetime warranty (25 years) on the water tank for home use.

ONE-PIECE, BENT TANK FRAME
PREVENTS SQUEAKS AND CREAKS

The frame above the tank absorbs the most force during exercise. That's because you push off on the footplate and pull on the pulley at the front of the frame using the cord. Because this frame consists of one part curved wood or steel, it prevents squeaks and creaks and feels super sturdy.

ACCESSORIES

TOUCH HEART RATE HANDLE
Install this premium, ergonomic handle for quick, accurate heart rate readings. Connects to your Fluid Bluetooth monitor.

Art. Code: 22FTHR000

SEAT BACK KIT
Offers extra back support while rowing, for example, during rehabilitation or when having an injury or chronic back pain.

Art. Code: 22FHSBK000

ELEVATION KIT
Double (+10 cm) or triple (+20 cm) the height from the ground, for easier access. Fits all Viking and Apollo Fluid Rowers.

Art. Code 10 cm: 22FEVK0000 Art. Code 20 cm: 23FEVK0020

HEART RATE RECEIVER KIT
Connect your Fluid Monitor to an analog heart rate chest belt. Compatible with all Plus models.

Art. Code: 22FAHRK000

ANTI SLIP PROTECTION MAT
Protects the floor, prevents slipping and offers extra stability - even during intense workouts. Size: L 225 x W 90 x H 0.5 cm.

Art. Code: 24FAPM0000

SMARTPHONE HOLDER
Attach a smartphone holder above the monitor so you always have a clear view on your screen.

V & XL models: 22FSPH0000 Plus BT models: 24FSPHP000

XL TABLET HOLDER
For tablets from 6 to 13 inches, making workouts more realistic, fun, and challenging.
