CARDIO COLLECTION

# PLATINUM

Meet the Tunturi Platinum collection, where excellence meets versatility.

The line boasts commercial-grade fitness equipment pieces designed for demanding users seeking the pinnacle of performance.

Whether you're a home enthusiast, hotelier, or physiotherapy professional, our high-end, modern, and sleek designs deliver robust, sturdy equipment in striking black finishes.

Experience ultimate comfort as you train with our Platinum Collection, designed to elevate every workout with ergonomic precision and luxury.

Elevate your fitness experience with Tunturi Platinum, where superior craftsmanship meets unparalleled functionality.

Explore the range and redefine your workout space with the best of the best.

# U20

## UPRIGHT BIKE

### SAFE AND SECURE WORKOUTS

The U20 has a magnetic brake system with a gradual build-up of resistance, up to a maximum of 450 W. Ideal for light and intermediate training, rehabilitation and physiotherapy.

## BLUETOOTH AI MONITOR

7 inch LED/LCD backlight color display with 48 resistance levels, 26 programs, 4 intuitive control buttons, aluminium dial, tablet holder and silver LED beam. The 4 major parameters are not blocked from sight when a tablet is placed.

# R30W

BY FLUID

## ROWING MACHINE

### ROWING AS IF YOU ARE ON THE WATER

Rowing with the R30W sounds, feels and looks like you are on the water thanks to the high-quality water tank with patented Twin Tank technology. This unique system lets you adjust the resistance of the water using the dial.

### BLUETOOTH LCD MONITOR

Provides real-time insight into rowing metrics like time, watts, calories, distance, and strokes per minute. It automatically displays the selected resistance level and connects to apps via Bluetooth. The Power Graph shows your rowing stroke in real time, helping you perfect your technique.

# T20 TREADMILL

## MAXIMUM RESULT, MINIMUM IMPACT

Robust treadmill for regular and intensive use with features for maximum training results and minimal impact on knees and joints

10 inch LCD display with training parameters, tablet holder and direct Bluetooth connection

Extra control panel

Firm and soft side supports

Powerful, quiet and maintenance-free AC motor (4 HP)

Extra wide and long running surface (155 x 56 cm)

Side landings made of strong and durable aluminium

Extra thick 2.2 mm diamond running mat.

6-piece cushioning system minimises the impact on knees and joints

Heavy transport wheels

## BLUETOOTH LED/LCD MONITOR

10 inch LED/LCD backlight color display with control buttons for speed and incline and an overview of all parameters. Time, heart rate, calories and speed are not blocked from sight when a tablet is placed.

# UNIQUE FEATURES

## RUNNING

## POWER SLED TRAINING

## REHABILITATION

## (POWER) SLED TRAINING

Use the core bar at the front of the treadmill to push, or - if walking backwards - pull. The core bar has two positions, loose and fixed, that can be set with the 'pop pin'. The resistance can be adjusted from 1 - 100%. For an extra challenge, attach the bungee resistance bands.

## STRENGTH TEST

Train for 30, 60, 90 or 120 seconds at 100% resistance. The treadmill measures and displays how much power - shown in wattage - is exerted, along with the covered distance. This unique feature makes the machine very suitable for HIIT and Cross Fit workouts.

## LIMIT MODE

Special program with a unique starting speed of 0.1 km/h and a maximum speed of 2.5 km/h. The monitor displays the distance covered per meter, instead of the usual 100 meters. This provides extremely accurate training data for both light and heavy rehabilitation training.

## BACKWARD WALKING

Special program with the same range as the limit mode (a speed of 0.1 to 2.5 km/h), with the running mat literally moving in the other direction. Walking backwards is a good physiotherapy exercise, which can be combined with an incline to walk downhill instead of uphill.
